

A presentation by Dr. Darryl Inaba, Pharm.D.

The Evolving Science of Relapse & Recovery

Friday, February 26, 2010 - 1pm to 4 pm
South Texas Centre / AT&T Building 1 ~ Suite 100
7500 US Highway 90 West, San Antonio, Texas

Recovery is a life-long pursuit and relapse is an insidious specter waiting in the wings to derail the journey. Join us for an exciting exploration of the science of relapse and recovery. Dr. Inaba will share new research as well as delve into the neurobiology of the brain's memory function. The program also includes a screening of a new video on relapse and recovery produced by CNS Productions, Inc.

Hosted by:

3 CEU's Available
